To Whom It May Concern,

Re: Barenboym, Maryam (MRN: 35239019, DOB: 1/7/1922)

Mrs. Maryam Barenboym is a patient under my care at Memorial Sloan-Kettering Cancer Center, treated for pancreatic cancer. Ms. Barenboym is current admitted at MSKCC and is clinically ready for discharge. Sub-acute rehab was presented as an option for maximum hours of care. However, patient wishes to be in the comfort of her own home and would prefer not to go to sub-acute rehab. Alternative discharge plans are in place to provide a home attendant for 5 hours a day, 7 days a week. However, because of clear evidence of progression of disease, including pain and depression, patient needs constant care and assistance and would prefer to have such support at home rather than an outside facility. If home care is granted, she would need home attendant services for 24 hours a day. Any courtesy extended to her would be greatly appreciated.

If you require any additional information please contact my office at (212) 639-6672.

Sincerely,

Eileen O'Reilly, MD
